

直線焊接

CML Series

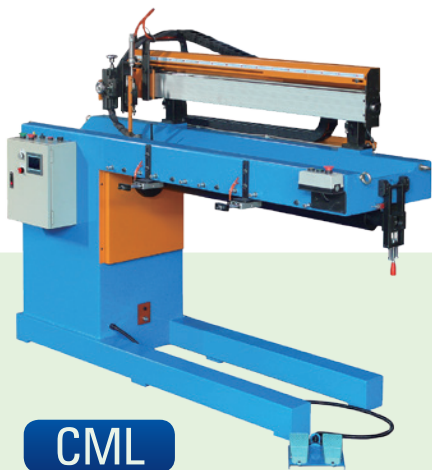

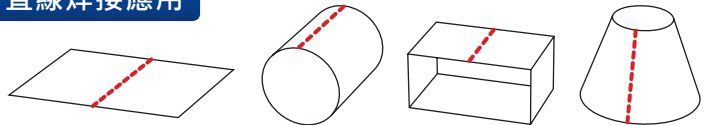

Seam Welding Machine

- 觸控式介面、操作簡單、可輸入焊接長度及各項焊接控制參數。
- 精密直線滑軌搭配滾珠螺桿，使傳動穩定，焊接件可降低破損率，提高焊道品質。
- 機台主軸內附背吹系統，冷卻裝置可抑制溫度上升。
- 可配合 TIG/CO₂、SAW 自動焊接。
- TIG 焊接可增加自動送料系統。
- Touch system screen, easy operation, can input the welding length and welding control parameter.
- Precision linear slide rail working with ball screw can secure stable transmission, reduce the breaking rate of the welding piece and upgrade the welding path's quality.
- The back-blowing system and the cooling device are equipped inside the spindle to restrain temperature rising.
- Can work with TIG/CO₂, SAW for automatic welding.
- TIG welding can be added with automatic feeding system.

◀ 輸入焊接長度
Input the welding length

直線焊接應用

CML
標準型 Standard type

CML
加高型 Height type

CMLL
升降型 Lifting type

型號 Model No	有效焊接長度 Effective welding length	工件最大直徑 Max. diameter of workpiece	焊接厚度 Welding thickness	工件台車 Trolley	入力電源 Input Power	驅動馬達 Driving motor
CML-600	600mm	Ø600mm	0.4~10 mm	選購 (option)	220V 1Ø	DC motor
CML-800	800mm	Ø600mm	0.6~10 mm	選購 (option)	220V 1Ø	DC motor
CML-1000	1000mm	Ø600mm	0.6~10 mm	選購 (option)	220V 1Ø	DC motor
CML-1300	1300mm	Ø600mm	0.6~10 mm	選購 (option)	220V 1Ø	DC motor
CML-1600	1600mm	Ø800mm	0.6~10 mm	選購 (option)	220V 1Ø	DC motor
