## Welding Roller / Pipe Roller

- 適合大型桶槽製作、焊接圓周、切斷作業使用。
- 自動焊接可搭配十字架使用、提昇焊道品質。
- 10T 以上動力以 DC 馬達做驅動力提高旋轉扭力。
- 鋼性強化結構防止機台經荷重而變形。
- 轉速 100~1000 (mm/min)
- It's suitable for big tank making, circumference welding and cutting.
- Automatic welding can work with the cross arm to upgrade the welding path's quality.
- Over 10 tons is driven by DC motor to increase the rotating torque.
- Rigid structure can prevent machine from deforming due to heavy load.
- Rotating speed 100~1000 (mm/min).
